Redwood City
For directions visit:
www.redwoodcity.org/about/location.html

Cost: FREE!
Refreshments served

Please visit:
<http://www.recycleworks.org/sustainability/lectures.html>

Residential landscape irrigation typically uses more than 25% of the total water consumed in a home and landscaping is usually overwatered by 30-40%. Chip Krug, founder of Turner Fine Gardens, will speak about how you can reduce water usage through better irrigation systems and practices. He will also talk about how to use native plants to create vibrant and colorful landscaping.
